NEW TRIAL

For Estill Darrell Who Has Been Twice Convicted of Criminally Assaulting His Niece, Lillie Darrell Thornsberry in June, 1903.

Estill Darrell, twice convicted of having criminally assaulted his niece Little Darrell Thornsberry, has been granted a new trial, the court of appeals having reversed the decision of the Daviess county jury inflicting a penalty of ten years in the penitentiary upon him. The first verdict returned at the April term of court, 1904, was twenty years in the penitentiary. The case was appealed to the court of appeals and reversed on.

Darrell was given a second trial and the jury this time returned a verdict fixing his punishment at ten years in the penitentiary. The case was again appealed and was reversed on account of an irregularity in the trial.

Darrell was accused of committing a rape on his niece, Lillie Darrell. She is now residing near Whitesville with her second husband. She has appeared at each trial and testified against her uncle. The alleged crime was committed three years ago and after its perpetration Darrell left the country. He was soon after arrested in Indiana at a point a few miles above Tobsport, and brought back. There was considerably talk about his being in danger of a mob, but better information showed that this was idle talk. He could not give the required bond and was placed in jail, where he has languished ever since.

Misses Woodward Entertain.

Misses Dena and Gussie Woodward entertained the girls' social club at their home in Beaver Dam Wednesday evening, September 27, 1905. Quite an enjoyable evening was spent by all present.

A feature of the evening's entertainment was a trip around the world ending up with a visit to the Fabled Fountain of Youth whose crystal waters make the old young and the young younger. All the tourists partook freely of the youth restoring waters and all expressed themselves as being sure that the dream of Ponce de Leon was not all a dream.

Those present were: Misses Maggie Brunton, Isabelle Bean, Pearl Pate, Pansie Stevens, Mary Ezelle, Maybelle Williams, Mary Bennett, Kittie Rhoads, Norma Brown, Essie Williams, May Bir, Marie Austin, Gussie Woodward, Dena Woodward, Arbye Brown. Messrs. Arch Lewis, Claudis Render, Cecil Hocker, Claude McKenny, Joe Williams, George Bennett, J. G. McKenny, Herbert Lewis, Fred Riggs, Len Goering, Hiram Miller, M. D. Maddox and Morton Williams. HOLLAND.

Shooting Scrap at Rosine.
Obrey House shot and painfully wounded his step-father, Harry Moore at Rosine last Friday afternoon about sundown. Five shots were fired at Moore but only two took effect one in the arm and one in the breast, each inflicting flesh wounds only.

It is reported that Moore and wife had a quarrel and he went over in town filled up on "booze" and when he came home he and Aubrey House, a step-son, got into a racket. House, it is said, had a hatchet and Moore an ax as weapons. House concluded his weapon was insufficient and went

up to town and got a pistol and on his return met Moore, who ran away but as he was fleeing the shots were fired taking effect as stated.

Marshal Jerry Clark arrested both parties and arrived in Hartford about noon Saturday. Each of the parties gave bond and was released from custody, their examining trial being set for last Monday, at which time the cases were called and set over until Monday, October 2.

Secure a Good Position.

A commendable feature of the Bowling Green Business University Bowling Green, Ky., is that it not only gives its students a thorough and practical education, but also secures for them pleasant and profitable employment upon graduation. Any one contemplating taking a Commercial Course should write for catalog and full particulars. Address H. H. Cherry, President, Bowling Green, Ky.

NOTED CASE.

Of the Fordsville Graded Common School Affirmed By Appellate Court.

Frankfort, Ky., Sept. 26.—In an opinion by Judge Hobson, the court of appeals affirmed the Ohio circuit court in the case of the board of trustees of Fordsville school against John Phillips Postel and others. After bonds to the amount of \$3,000 for a common school at Fordsville had been declared void because of failure to take a vote of the people, the bondholders sued in equity and had the school building transferred to them. This transfer the court here upholds.

Resolution.

Whereas, On Sept. 15, 1905, an all wise, and loving God called from this world of trouble to a land of everlasting peace, the beloved mother of our Bro. Sir Knights J. C. and Samuel Riley and grand mother of our Bro. Sir Knights R. R. and Wallace Riley. Therefore be it.

Resolved, That we as their fraternal brothers, extend to them, the heart felt sympathy that restores peace to a mind in trouble and commend them to ever emulate that Christ like spirit ever present in her pure christian life.

Resolved, That the Record Keeper spread these resolutions on the records, and present the family with a copy of the same also present a copy to each of the county papers.

College News.

About twenty boarding students have enrolled up to the present time. Mr. Cecil Park, of Taffy, entered the collegiate department the first of the present week.

Prof. Gray was out of town Saturday in the interest of the school and reports that several new students are expected to enter school soon.

The work of installing the heating plant in the College building is progressing nicely and it is expected that it will be completed by October first.

The reception given at the College last Friday evening was attended by a large number of friends, among whom were former students and out-of-town guests. A fine literary and musical program was rendered by the following ladies: Mesdames L. N. Gray, J. S. Glenn, R. D. Walker, Ellis Thomas and Misses Carrie Wener, Mary Keown, Hettie Riley, Florence Morton, Margaret Nall and Nettie Rogers. All present seemed to enjoy themselves thoroughly and the evening was one long to be remembered. It was far into the night before the young folks even thought of departing for home so much did they enjoy the evening's gayeties.

BRILLIANT OPENING.

Best Theatrical Show Ever Given in Hartford Opened Season Last Week.

The theatrical season was opened at the Opera House here last Friday and Saturday nights in one of the most brilliant theatrical shows that has ever been staged in our little city.

The troupe is known as the Dora Woodruff Company, composed of sixteen characters each exceptionally well trained, and is conceded to be one of the strongest repertoire shows on the road.

The appearance of the "Moon-shiners," typical of the mountain illicit distillers Friday evening was greeted by a large and highly pleased audience, while on Saturday eve "New Hampshire Folks" shown most brilliantly from behind the foot-lights eliciting the applause of one of the largest crowds ever assembled at the Opera House. Most every one pronounces this the best theatrical show ever given in Hartford.

The company will return during the fair week during which time an entirely new program will be rendered.

Needs for County Work.

There are 106 counties in Kentucky in 90 of which there are no towns larger than 5,000 inhabitants. At least 10 per cent of the young men reside in the smaller towns and on the farm. These young men are subjected to temptations every where as severe, although different somewhat in form, from those which attack the men of larger towns. They are therefore as truly in need of the religious, social, educational and physical work that the Young Men's Christian Association affords. Not alone for the young men who remain at home, but in the interest of the thousands who are going to the city or enter college, railroad or army life is this work needed. It is important that they shall at once identify themselves with the great movement that is being operated for these classes of men. A membership ticket in the smallest association will serve as an introduction in every association in the land. Ohio county soon closes its third year and while much has been left undone and difficulties have been met yet we all agree that no force outside of the church has done as much for the betterment of our boys and men in Ohio county. Next week we will tell how a county is organized and maintained.

A School With Prestige

The Southern Normal School needs no introduction to the public. It has been in constant and successful operation for the last twenty-eight years, has won an enviable reputation for thorough and practical work. It operates the School of Law, Music, Elocution, Oratory Pedagogy, Preparatory, County Certificate, State Certificate, Junior Scientific, Senior Scientific and Classic Courses. Any one contemplating taking any of these Courses should write for a handsome Catalog and illustrated Journal. Mention course wanted. Address H. H. Cherry, General Manager, Bowling Green, Ky.

Memory's Cycle.

How strange a thing is memory. How it will sleep like a pillowed babe on an Autumn day; and how like the fabled rill it prolongs its repose amid overhanging scenes, stranger still perhaps is how soft a whisper may awaken it into life again.

A little girl just now urging her untuned voice to sing, sang a single verse "god is love." Worthy as were these words to stir and warm the soul it was not for that, but for expression in song long years ago, that I bowed my head in sad and solemn reverie.

I had been long away when I approached, one summer night, a rude

log school house standing in the shadows of ancient oaks and elms. Many months before I had sung with that class of country lads and lassies "God is love." From out the open windows a voice softer, sweeter, clearer than the rest, fell like heavenly echoes upon my listening ear. Within that breast that rose and fell in song I knew a warm heart beat for me, and I listened long before I tapped the window sill upon which leaned the singer's snowy arm. Her voice grew softer and it trembled some as she smiled and bowed her stately head.

But it was not a story of love I meant to write only to tell how a trifling incident may arouse the long forgotten emotions of youth into spectral action to play over again their silent parts on the stage of years.

MISS ROOSEVELT'S GIFTS

Received in East Countries While There Will Amount to \$100,000.

Washington Sept. 23.—It is roughly estimated that the presents which Miss Roosevelt has received from the Empress of China, the Emperor of Japan, the Emperor of Korea, the Sultan of Jola and others in the far east will reach a cash value not far short of \$100,000. Miss Roosevelt was placed in a position where she could not decline any of the presents without giving offense. The gifts came to her as the representative of the government, although she did not travel with any such credentials. As the daughter of the President she was regarded by the orientals as they regard the reigning families of European kingdoms. The gifts were tokens of friendship and good will for the United States and Miss Roosevelt could not have declined any, not even the pearl from the Sultan of Jolo, without placing the government in the attitude of rejected friendly overtures.

Centertown LiveStock Company.

The Centertown Live Stock company which was organized Sept. 25, has purchased of Highsmith Bros., of Robinson, Ill., an imported German coach stallion for the handsome sum of twenty two hundred dollars. PE-RU-NA CURED.

MRS. M. BRICKNER.

99 Eleventh Street, Milwaukee, Wis.

"A short time ago I found my condition very serious. I had headaches, pains in the back, and frequent dizzy spells which grew worse every month. I tried two remedies before Peruna, and was discouraged when I took the first dose, but my courage soon returned. In less than two months my health was restored."—Mrs. M. Brickner.

The reason of so many failures to cure cases similar to the above is the fact that diseases peculiar to the female sex are not commonly recognized as being caused by catarrh. Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

If you have catarrh write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

RIP VAN WINKLE

Returns to Lexington to Find his Former Bride Dead.

Left Home Mysteriously and was Believed to Have Met With Foul Play.

Lexington, Ky., Sept. 25.—Rip Van Winkle, in modern and up-to-date form, was revealed to-day in return of Samuel Snyder, a former wealthy jeweler merchant of this city, who left home 21 years ago. His appearance was surrounded by a deep mystery, which had never been solved.

It was generally believed by friends and relatives that he had been the victim of foul play, and caused untold misery to his bride of three months, who was before her marriage to Snyder, Mrs. Sue Lyne, mother of Sanford C. and Willie Lyne, thoroughbred breeders and turfmen.

Snyder and Mrs. Lyne were married in September 1884, and the groom disappeared just before Christmas of the same year. The couple had gone to Louisville, where Snyder had been called on business and while there they stopped at a fashionable boarding house in the central part of town. The morning after their arrival Mrs. Snyder accepted an invitation to spend the day with friends and Snyder accompanied her to within a block of the house kissed her good-bye and promised to meet her at the boarding house that night, but that was the last seen or heard of him by his bride.

After the wife partly regained her composure from the shock of the disappearance of her husband, she had printed and sent broadcast throughout the country cards giving as description and offering a reward for the return of the man, dead or alive, it being firmly established in her mind at the time that he had either been a victim of foul play or had

become suddenly insane.

Residents of this city, in speaking of the disappearance of the man and his sudden reappearance to-day, recalled to mind the fact that shortly after he left home a bundle of clothing purporting to be his had been found on the banks of a stream in India, and it was then decided that Snyder had committed suicide and his relatives came forward with an offer of the handsome reward for the recovery of the body.

At no time between the disappearance of Snyder and the death of his wife several years ago did she ever hear from him.

Shortly before his marriage to Mrs. Lyne, Snyder was in the jewelry business in Lawrenceburg.

Snyder is now about 75 years of age, and has a flowing white beard. His friends were unable to recognize him until he introduced himself.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials.

BEREAVED COW

Took her Own Life When Calf Was Taken Away From Her.

[Sciota (Moine) Cor. New York World.]

Ira Worcester, proprietor of the Saco House, is telling his guests about the suicide of his cow. The animal was a valuable thoroughbred and for a few weeks had been the proud mamma of a spry little thoroughbred bossey. The calf was taken away from her six days ago, and she had been inconsolable. Her big brown eyes had been pathetic, and actual tears had furrowed a little channel down the rough hairy hide of her high-bred face.

On the first night after the loss of her calf she jumped a five-rail fence, escaping from the pasture to wander mourning about the streets, howling distractedly and complaining to the winds of heaven. They responded not, and one night she again escaped. This time she started toward the business center evidently intending to visit the markets to find a possible clew her baby. When the 8 o'clock electric car from Portland bowed into sight she seemed to recognize in it a special providential means of escape from her grief. She waited so far to one side of the track that the motorman considered her out danger. But as the car came opposite her she gave a sudden melancholy "moo" and leaped directly in front of the moving car. The rounded end of the car struck her, and she went down in a tumbled head. Examination showed her to so badly hurt that it was necessary to kill her at once.

"A clear case of a cow suicide," says Proprietor Worcester, sorrowfully.

PRESIDENT ROOSEVELT.

Describes His Hunt For Big Game in the Colorado Mountains.

(Scrivener's Magazine.)

Bear and cougars had once been very plentiful throughout this region but during the last three or four years the cougars have greatly diminished in numbers throughout Northern Colorado, and the bears have diminished also, although not to the same extent. The great grizzlies which were once fairly plentiful here are now very rare, as they are in most places in the United States. There remain plenty of the black and brown bears, which are simply individual color phases of the same species.

Black bear are not, under normal conditions, formidable brutes. If they do charge and get home they may maul a man severely, and there are a number of instances on record in which they have killed men. Ordinarily, however, a black bear will not charge home, though he may bluster a good deal. I once shot one very close up which made a most lamentable outcry and seemed to lose its head, its efforts to escape resulting in its bounding about among the trees with such heedless hurry that I was easily able to kill it. Another black bear, which I also shot at close quarters, came straight for my companions and myself, and almost ran over the white hunter who was with me. This bear made no sound whatever when I first hit it and I do not think it was charging. I believe it was simply dazed, and by accident ran the wrong way, and so almost came into collision with us, however, when it found itself face to face with the white hunter, and only four or five feet away, it prepared for hostilities, and I think would have mauled him if I had not brained it with another bullet; for I was myself standing but six feet or so to one side of it. None of the bears shot on this Colorado trip made a sound when hit; they all died silently, like so many wolves.

Ordinarily, my experience has been that bears were not flurried when I suddenly came upon them. They impressed me as if they were always keeping in mind the place toward which they wished to retreat in the event of danger, and for this place, which was invariably a piece of rough ground or dense timber, they made off with all possible speed, not seeming to lose their heads.

Frequently I have been able to watch bears for some time while myself unobserved. With other game I have very often done this even when within close range, not wishing to kill creatures needlessly, or without a good object; but with bears my experience has been that chances to secure them come so seldom as to make it very distinctly worth while improving any that do come.

Crabs Attack Rattlesnake.

(Portland (Maine) Cor. New York World.)

James W. Starr's experience with a female rattlesnake was notable. He and his boys found the snake coiled on a rock, and getting a looped string over its head, took it into a box and soon after gave birth to four young ones. Two of these were dead, but two were alive and soon began to act lively, striking viciously at the human faces looking at them.

The Starrs brought some crabs from the stream nearby and put them into the box as food for the old snake. The crabs at once proceeded to attack the mother snake soon cowering her, and would have killed the young rattlers had not Starr got the pugnacious and plucky crabs out of the box.

When Dewey Cried.

The following story of Admiral Dewey is told by one of the sailors

on the Raleigh and printed by the Kansas City Journal. Just before the Battle of Manila, when the order was given to strip for action the smallest power boy on the flagship dropped his coat overboard. He asked permission to jump after it, but was refused. He went to the side of the ship, dropped overboard recovered the coat and was promptly arrested for disobedience. Admiral Dewey spoke kindly to the youngster who broke down and said the coat contained his mother's picture, which he had just kissed and he could not bear to see it lost. Dewey's eyes filled with tears. He fairly embraced the boy and ordered him released saying: "Boys who love their mothers enough to risk their lives for her picture cannot be kept in irons in this fleet."

STRING OF PEARLS

Imbedded in Woman's Flesh May Establish Her Identity.

(St. Louis City (Globe) Dispatch.)

Upon a string of pearls sealed about her waist when a child and now imbedded in her flesh, Mrs. Joseph Holdober, of Wakefield, Neb., relies to establish her identity as Moti Pearl, Princess of the house of Gujelt Singh, India, and to prove her right to a fortune of \$500,000 now in the Bank of England. This string of Jewels was put about her waist when a girl to be the insignia of her royal birth. For 15 years Mrs. Holdober has sought to establish her identity and to prove to the consuls of Germany and England in the United States that she is really little Moti Pearl, daughter of the Prince of Gujelt Singh, and it was to lay his claims to his estate that she left for Washington last week.

Her journey came to an abrupt end when the Chicago authorities, after a hasty examination sent her to Dunning Asylum, and in the same day confined her husband to the detention hospital and separated her two small children. Before giving East Mrs. Holdober was examined by several prominent physicians who made affidavit to her sanity and told of making an examination of the woman's abdomen, where a number of Indian pearls were imbedded when she was a child.

Four large pearls may still be seen sewed in her skin, while the scars where she has cut out a half dozen precious stones tell only too plainly that poverty has caused her to remove a gem from time and convert it into cash. The original strand was worth \$18,000. This string of royal pearls together with the story she tells, is her only evidence of being an Indian Princess and heiress to over \$500,000 left by the house of Gujelt Singh, and disposed by English officers in the bank of England.

FORGOTTEN TRAGEDY

Revealed When the Minnesota River Found a New Channel.

(Lowell (Minn.) Dispatch.)

Fifty-three years ago, when the forests were still standing, rainfall abundant and rivers and lakes much higher than to-day, steam boats used to ply regularly up and down the Minnesota river between St. Paul and Mankato. One of the best of these boats was the Engadine, owned and operated by the Western Steam-er-Company, of Red Wing.

One day in the springtime, when the water was at full flood height spreading miles wide across the valley the Engadine left the landing at Wheatly bond down the river, but had not gone half a mile on her way when she was discovered to be sinking have sprung a leak in some mysterious manner that was never explained. The pilot ran her ashore on a small island in midstream and she held her place against the bank long enough for all the passengers to land and all the officers and employers except the captain and one roustabout, a fellow by the name of William Civer, to make their escape. Then she swung into the current again, broke from her fastenings floated down stream around the next bend in the river and disappeared, never to be seen or heard of again during the century. The Captain and the roustabout both went down with the sinking boat.

Twenty-five years later the river cut across the neck of a great bend three miles below Wheatley, and permanently abandoned the old bed of the stream, which became a part of the farm of O. L. Plint. Last week Plint commenced building a house in the little valley where the river used to run. The cellar was a large one 30 by 50 feet and five feet below the surface of the ground Plint came upon the wreck of the long-lost Engadine. In the hold of the vessel he found a full explanation of her mysterious sinking and the strange disappearance of the roustabout and the Captain.

With their limbs intertwined, as if they had died struggling together, two skeletons lay in the bottom of the hull and one of these skeletons was easily identified, by gold rings and a gold watch, as the remains of the Captain, while the other was naturally supposed to be that of the roustabout. Through the oaken planking that had formed the bottom of the hull of the vessel, and was still in a good state of preservation, were found three large auger holes near the point where the skeletons were lying, beneath the remains also was found the large auger with which the holes undoubtedly were bored.

It is supposed that the Captain, going below for some reason, probably to ascertain the cause of the leak found the roustabout at his nefarious work, grappled with him and that both died in the struggle. It has been decided that an inquest would be a useless formality and expense and could serve no good purpose.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good, so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, Dyspepsia, Biliousness and Kidney Disease, by Z. Wayne Griffin & Bro., druggist, at 50c a bottle.

After You are Dead.

If a man has been dead long enough, he gets what is coming to

him. When Thomas Paine died, he was the most thoroughly abused man in the country, and it was not until he has been dead many years that his genius was understood. Sentiment has swung so far the other way that last week his bust was placed in Independence Hall, Philadelphia, that sanctuary of America patriotism. Still, when he died, his body could not secure burial even in a Quaker graveyard, and it was buried on his own farm in New York State. Later it was taken to England. The day will come however, when his bones will be brought back with all the homage that was shown the body of John Paul Jones.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, Pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with pneumonia under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for sore throat, bronchitis, coughs and colds. Guaranteed at Z. MUST PAY LICENSE.

Druggists Can no Longer Sell Patent Medicines Containing Excess Alcohol.

The ruling Commissioner Yerkes that retail druggists who sell patent medicines which may be used as a beverage must pay the special taxes as retail liquor dealers has been received. It will probably not be enforced for some time, as the commissioner says that it will take at least two months to make a list of the alcoholic preparations which come under the ruling. There are many preparations that are merely alcoholic liquor in disguise and are put up for the large class of people who could not think of their liquor straight, but who must have their tripple. They pay an enormous price for their drinks, but they prefer to do this to being known as drinkers.

AMPLE OPPORTUNITY FOR EXPLANATION HAS BEEN GIVEN.

A prominent member of a certain iron bridge building committee who is also a candidate for office on the Democrat ticket puts the following question to us through the editorial columns of the Hartford Herald:

Has the editor of the Hartford Republican ever called on any member of any iron bridge building committee of Ohio county for any information? If you say you have, please state who it was and when you called on him. And if you have not called, please explain why.

For the benefit of the candidate iron bridge committeeman who penned these lines, we will say that we have never interviewed privately nor personally any member of any iron bridge building committee, with a view of gaining any information about the iron bridges from him. The reason why we have not is simply this: Committeeman Judge J. P. Miller's refusal to give our friend, M. S. Ragland, any information about the time and place of the meeting of the committees that recently met at the Judge's office and contracted secretly for the building of the Ambrose ford bridge, the Indian Camp creek bridge and the Hamilton ford bridge, after promising to do so, signified to us that nothing of importance could be ob-

tained from the knowing members of the committees. But we have asked and are still asking these committees through the columns of THE REPUBLICAN for an explanation.

In THE REPUBLICAN of date of June 30, we said to the iron bridge building committees as well as to the public. "People are asking us such questions as why it costs nearly twice as much to build an iron bridge in Ohio county as it does in Daviess county. If any one can help us to inform an inquiring public we would greatly appreciate the favor." And the candidate committeeman and all the others made no response.

Again in THE REPUBLICAN of date of July 28 we said to the same committees and the public: "Anyone who can find out, ten days in advance when the contract for the building of the iron bridge across Rough creek at Ambrose ford will be let out, can earn a neat little sum by notifying a certain bridge company whose address can be learned by applying at THE REPUBLICAN office." To which the candidate iron bridge committeeman and all the others made no response.

Again in THE REPUBLICAN of date of August 4 we said to the same committees and the public: "There is such an inviting field for the iron bridge business in Ohio county that other bridge companies are willing to pay to get a chance to bid against the Champion Bridge Co., on the contract for building the bridge across Rough River at Ambrose ford. The committee on construction, if they propose to give a square deal, should notify all available bridge companies of the time and place of the letting of this, as well as all other contracts for the construction of the iron bridges." And the candidate committeeman and all the others made no response.

Again in THE REPUBLICAN of date of August 18 we said to the same committees and the public: "Several weeks have passed since we invited the committee whose duty it is to contract for the iron bridge across Rough River at Ambrose ford to explain how, when and where the letting of the contract would occur. But as yet they have made no response." And to this the candidate committeeman and all the others made no response.

In view of these various pointed public statements and interrogations how can the iron bridge committeeman and candidate, who is now assisting in editing the Hartford Herald, or any one else, have the audacity to ask us if we have called on any member of any iron bridge building committee for any information? Have not the iron bridge committees been given ample opportunity to explain

if they desired to explain? If not, how can an opportunity be afforded them?

THE Hartford Herald reminds us of the man, of whom every body has heard, who persisted in saying that a certain horse was seventeen feet high when in point of fact the horse was less than six feet high. Sometime ago it harassed its few readers with the statement that the present Democrat County Judge and Fiscal Court had paid off \$35,000 indebtedness of the county in the past seven years. Everybody knew the statement was not true and passed it by as the seventeen feet horse joke, is passed by. At this particular time this great journal is annoying its few remaining readers with the statement that ten per cent. has been saved on iron bridges and twenty-five per cent. on abutments built in Ohio county during the past seven years. Of course no one believes the statement. It is considered in the light of the old seventeen feet horse joke just like the \$35,000 "gag." And why should anyone believe such a "cock and bull" story when there is not a single fact or figure given on which to base such a conclusion. The cost of a single bridge or abutment, built in the last seven years, is not given, neither is the cost of a bridge or abutment built before that date given. Show up the figures Mr. Herald or shut up lest you bore the remainder of your readers to death.

THE very bad condition of the public roads and bridges of the county is the subject of almost universal comment. Country men are unable to understand how it is and why it is that each succeeding year they are compelled to pay more taxes and each year the public roads, from lack of work and public attention, become a little worse than the preceding year and the bridges over the smaller streams for want of material and proper repair, have become almost a nonity. These are questions that are difficult to understand. The public records, relative to the public funds covering the past seven years, show that more than \$81,000 more revenue for public use has been turned into the coffers of the county than was turned in, in the preceding seven years, yet it is conceded that the public roads are in a worse condition than ever before in the history of the county. It is true that since the opening of the present campaign considerable work has been done on the roads in some parts of the county, for which the traveling public is very grateful, but those not worked since then present a most dilapidated sight. And why is it? Why have the roads been neglected and every citizen of the county been inconvenienced thereby?

THE Hartford Herald has run out of anything to fill up its columns and is now greeting the public with a good portion of its editorial column blank which no doubt is quite acceptable to many of its readers.

THE Omaha Bee is authority for the statement that Col. Bryan is the only Democrat in the country who can draw Democrats from a "greased pig race." It's probably because he is funnier than a pig race.

Come early and get the cream of the stock.

Millinery.

When you see the pile of Hats we are showing, you will wonder where they came from and where we are going to get the customers to buy them. If we haven't been selling you, we are anxious to sell you and confidently believe that there is no merchant who can serve you all around as well. Miss Merrie King, the head of this department, extends an invitation to every lady to visit this department. An opportunity to show you what we have to offer will be a pleasure to us and it costs you nothing to look.

SHALL WE EXPECT YOU?

Dress Goods and Ready-Made Skirts.

In this section we distance all competition. We have the assortment of Fabrics in all the leading colors at popular prices. There is not a piece in this mammoth stock of Dress Goods, Trimmings and Silks that can be duplicated for the price we charge. Come and look at them. We will put our time against yours and we won't feel bad if you do not buy.

Clothing, Shoes And Hats.

As outfitters for men and boys we court comparison. We know that we show as strong a line as can be gotten together in this county. Beautiful patterns, good styles, serviceable fabrics. We can fit most any man, youth or boy in size and price.

OUR SHOES are from the most dependable factories in the United States. They have the wearing and fitting qualities and you can depend on satisfaction in every pair.

Every department is overflowing with new merchandise. At a very reasonable expense you may help us to unload our Shoes, Suits, Hats, Overcoats, Furniture, Stoves and everything else you need.

AMPLE OPPORTUNITY FOR EXPLANATION HAS BEEN GIVEN.

A prominent member of a certain iron bridge building committee who is also a candidate for office on the Democrat ticket puts the following question to us through the editorial columns of the Hartford Herald:

Has the editor of THE HARTFORD REPUBLICAN ever called on any member of any iron bridge building committee of Ohio county for any information? If you say you have, please state who it was and when you called on him. And if you have not called, please explain why.

For the benefit of the candidate iron bridge committeeman who penned these lines, we will say that we have never interviewed privately nor personally any member of any iron bridge building committee, with a view of gaining any information about the iron bridges from him. The reason why we have not is simply this: Committeeman Judge J. P. Miller's refusal to give our friend, M. S. Ragland, any information about the time and place of the meeting of the committees that recently met at the Judge's office and contracted secretly for the building of the Ambrose ford bridge, the Indian Camp creek bridge and the Hamilton ford bridge, after promising to do so, signified to us that nothing of importance could be ob-

tained from the knowing members of the committees. But we have asked and are still asking these committees through the columns of THE REPUBLICAN for an explanation.

In THE REPUBLICAN of date of June 30, we said to the iron bridge building committees as well as to the public: "People are asking us such questions as why it costs nearly twice as much to build an iron bridge in Ohio county as it does in Daviess county. If any one can help us to inform an inquiring public we would greatly appreciate the favor." And the candidate committeeman and all the others made no response.

Again in THE REPUBLICAN of date of July 28 we said to the same committees and the public: "Anyone who can find out, ten days in advance when the contract for the building of the iron bridge across Rough creek at Ambrose ford will be let out, can earn a neat little sum by notifying a certain bridge company whose address can be learned by applying at THE REPUBLICAN office." To which the candidate iron bridge committeeman and all the others made no response.

Again in THE REPUBLICAN of date of August 4 we said to the same committees and the public: "There is such an inviting field for the iron bridge business in Ohio county that other bridge companies are willing to pay to get a chance to bid against the Champion Bridge Co., on the contract for building the bridge across Rough River at Ambrose ford. The committee on construction, if they propose to give a square deal, should notify all available bridge companies of the time and place of the letting of this, as well as all other contracts for the construction of the iron bridges." And the candidate committeeman and all the others made no response.

Again in THE REPUBLICAN of date of August 18 we said to the same committees and the public: "Several weeks have passed since we invited the committee whose duty it is to contract for the iron bridge across Rough River at Ambrose ford to explain how, when and where the letting of the contract would occur. But as yet they have made no response." And to this the candidate committeeman and all the others made no response.

In view of these various pointed public statements and interrogations how can the iron bridge committeeman and candidate, who is now assisting in editing the Hartford Herald, or any one else, have the audacity to ask us if we have called on any member of any iron bridge building committee for any information? Have not the iron bridge committees been given ample opportunity to explain

if they desired to explain? If not, how can an opportunity be afforded them?

THE Hartford Herald reminds us of the man, of whom every body has heard, who persisted in saying that a certain horse was seventeen feet high when in point of fact the horse was less than six feet high. Sometime ago it harassed its few readers with the statement that the present Democrat County Judge and Fiscal Court had paid off \$35,000 indebtedness of the county in the past seven years. Everybody knew the statement was not true and passed it by as the seventeen feet horse joke, is passed by. At this particular time this great journal is annoying its few remaining readers with the statement that ten per cent. has been saved on iron bridges and twenty-five per cent. on abutments built in Ohio county during the past seven years. Of course no one believes the statement. It is considered in the light of the old seventeen feet horse joke just like the \$35,000 "gag." And why should anyone believe such a "cock and bull" story when there is not a single fact or figure given on which to base such a conclusion. The cost of a single bridge or abutment, built in the last seven years, is not given, neither is the cost of a bridge or abutment built before that date given. Show up the figures Mr. Herald or shut up lest you bore the remainder of your readers to death.

THE very bad condition of the public roads and bridges of the county is the subject of almost universal comment. Country men are unable to understand how it is and why it is that each succeeding year they are compelled to pay more taxes and each year the public roads, from lack of work and public attention, become a little worse than the preceding year and the bridges over the smaller streams for want of material and proper repair, have become almost a nonity. These are questions that are difficult to understand. The public records, relative to the public funds covering the past seven years, show that more than \$81,000 more revenue for public use has been turned into the coffers of the county than was turned in, in the preceding seven years, yet it is conceded that the public roads are in a worse condition than ever before in the history of the county. It is true that since the opening of the present campaign considerable work has been done on the roads in some parts of the county, for which the traveling public is very grateful, but those not worked since then present a most dilapidated sight. And why is it? Why have the roads been neglected and every citizen of the county been inconvenienced thereby?

THE Hartford Herald has run out of anything to fill up its columns and is now greeting the public with a good portion of its editorial column blank which no doubt is quite acceptable to many of its readers.

THE Omaha Bee is authority for the statement that Col. Bryan is the only Democrat in the country who can draw Democrats from a "greased pig race." It's probably because he is funnier than a pig race.

THE Washington Post comes forward with an article headed "What Democracy Needs." Others have attempted to compile a list but have

been wholly unable to complete it.

RESCUED BY ELEPHANTS.

Pulled Stalled Mail Wagon Out of Mud in Time to Catch the Train.

[New York Dispatch.]

But for the strength and courtesy of four huge elephants, a two-ton batch of mail stuck into the mud at Sixth avenue and 42nd street, would have missed its train at the Grand Central depot last night.

The trouble began when a large mail wagon, loaded to the top, swung down Sixth avenue and ventured a sharp turn at the corner where street repairs had left a strip of soft earth, turned to sticky mud by recent rains. A new driver employed in place of a striker, was on the wagon and was accompanied by a policeman. He urged the horses in trap and the wheels sank to their hubs. A crowd gathered and broke three heavy ropes in their efforts to help the horses.

Then the policeman had a happy thought. He sent a message to an amusement house near by and asked for the services of the performing elephants. Four were hurried to the scene in charge of their keepers. They were harnessed to the side of the wagon and jerked it out of the mud with indescribable ease while the crowd cheered.

Earlier in the evening a crowded Madison Avenue electric car crashed into a large mail wagon at Fifteenth street and Union Square, overturning the vehicle. The strike-breaking driver and a policeman by whom he was accompanied were thrown into the street. Both were severely injured. The motorman was arrested.

How the Sun Rises in Ohio.

It was at the feeble dawn of day. A gentle mist lay low in unmoved air, and through its fading sheet of dimness the rays of a new day's sun rent with penciled outlines the cloak that hid the face of the green-eyed Nature from the refulgence of the torch of day. Moistened verdure smiled in gladdened touch of June-time dew and the tiny beds of settled mist glistened from leaf and blade as pearls in the precious sands of the treasure land of imagery. The shafts of light sent gray-edged streaks through the fleeting haze and changed to clearest air in the effervescence of the murkiness of morning. Then the graish veil of a golden dawn is lifted and the great fire ball beams in growing warmth to furnish forth a day of glory in the month of June. Not a finer beckoning of a resourceful world could any one crave when leaving home town in grand old Ohio for a peep at the never-ending charms of great, wide, wonderful America. And as the rumbling wheels roll on to the West, leaving the home scene in retreating glimmer, on over the continent of God's fairest gift to the billowed blue of the Pacific, the grandeur of the Buckeye morning is not forgot.

Ohio Girl's Big Salary.

A sixteen-year old girl is the highest-salaried citizen of Columbus, and undoubtedly the highest-salaried girl of her age in the world. She draws as much in salary as the President of the United States. This well-paid young woman is Miss Elsie Janis, a mimic, who made a great hit in New York last summer. She recently signed a contract with a New York company, but her Columbus friends have had no idea of the magnitude of her compensation. A personal letter received here yesterday says: "The contract covers the next three years and calls for the payment to Miss Janis by her employers of \$150,000 in money (\$50,000 a year), besides the expense of her travel in a special car."

The Good There Is in the World.

There are lots of good folks in the world—millions of them. Do you want proof? Keep your eyes and ears open. The other day Henry Kuhn and his aged wife started from St. Louis for Wheeling, W. Va., their pitiful all in the wagon. In Cincinnati the emaciated horse fell dead, and a man and woman old enough to be your grandparents sobbed helplessly.

A crowd gathered. A crowd always gathers in a city. In ten minutes that crowd had raised money enough to pay for an-

other horse, and soon the old wagon was creaking its way to Wheeling and smiles chased away the tears on wrinkled faces.

Just a trivial incident! But it makes your confidence in humanity stronger to hear about such doings.

Makes you glad to feel that there is quick sympathy and ready practical help to be had for the need of it.

Takes away from the theory of chill individuality, puts us on the plane of brothers, "loving one another," gives the world something to admire and approve, to help drown out the clamors of the chronically sad.

Well, let's go ahead and admire. Let's allow the sweetness and beauty of a kind action to permeate our souls, and give us the inspiration to go do likewise when the chance comes our way.

Used Tons Of Arsenic

Now that Dr. R. B. Leach has returned to St. Paul and the arsenic craze is subsiding the druggists and mathematicians of the city are estimating the number of arsenic tablets swallowed by the people of New Orleans and the surrounding section within the past six weeks.

The "arsenic craze" owes its origin to a letter which Dr. Leach wrote to the New Orleans papers claiming that arsenic tablets, taken three times a day in doses of 1-100th of a grain, would either prevent a person taking yellow fever or would result in his having only a very mild case. Dr. Leach offered to come to New Orleans, take arsenic inoculate himself with fever and allow the physician of the city to observe the results. The physicians would not officially recognize him, but the people went mad about the arsenic, with the results that the combined factories of the United States were unable to supply the demand which, in a few weeks amounted to more than the entire consumption of this country in the past 20 years.

The number of tablets swallowed by men, women and children within the past six weeks amounted, in the common opinion of the drug men, to an aggregate of 3,000,000,000. Each tablet measures about one-fifth of an inch across, and if laid side by side the 3,000,000,000 would reach a distance greater than the diameter of the earth and considerably more than one third of the entire distance around the earth. The weight of the tablets was 26 tons, or as much as a freight car could load, or twenty-odd terms of carts could haul through the streets. In bulk the medicine, packed closely, would make a pile of 7,000 cubic feet, or as much as could be put in a room 20 feet long, 20 feet wide and 20 feet high.

When Ingersoll Was Silenced.

Shortly after Ingersoll, the noted infidel, was defeated in his race for the governorship of Illinois, he was one day broadly proclaiming his infidelity on board a railway train, between Chicago and Peoria. After being for some time offensively voluble, he turned to a gentleman near him, and defiantly demanded: "Tell me of one great result that Christianity has ever accomplished." The gentlemen, not wishing to open argument with the boaster hesitated to answer. The train had stopped, and all was silent in the car.

Just then an old lady of eighty years, who sat just behind the infidel, touched his arm with trembling hands, and said: "Sir, I do not know who you are, but I think I can tell you of one great and glorious thing which Christianity has done."

"What is it, madam?" said Ingersoll. "It has kept Robert G. Ingersoll from being Governor of the great state of Illinois." If a stroke of lightning had flashed through the car the effect could not have been more marked.

Ingersoll turned literally pale with rage, and remained silent.

Significance.

"Remember," said the grave counselor, "that much money does not necessarily indicate great success." "No," answered the ambitious youth. "But its entire absence is a pretty sure sign of failure."

Proof Positive.

OUR NEW YORK WEEKLY LETTER

Smart Frocks Seen on the Avenue, In Fashionable Foyers and at the Play.

Tip Tilted Hats In the Rialto Parade. Grape Scarfs, Chemisettes and Other Accessories.

By RENE DEVERAUX.

It requires but a few crisp typical New York Fall days to bring forth on the avenue, in hotel foyers, shops and restaurants such an array of smartly gowned women as almost to bewilder one with their charm of contrasting fashions. Certainly as many colors are to be seen as there are in the autumn foliage, but fortunately one point is distinctly noticeable, and that is that the general fashionable color tones tend toward the subdued rather than the brilliant shades which almost startled one at the beginning of last season.

Among the matinee crowds which always throng Fifth avenue and Broadway in the neighborhood of the Rialto one would single out the different shades of plum for their richness of color and appropriateness for afternoon frocks. This shade, unquestionably the newest, is seen in its greatest beauty in the medium weight broadcloths, which perhaps tailor best after all. All the shades of wine, from the deep crimson to a shade a trifle pinker than cerise, are popular, the lighter shades in the soft henriettes, cashmeres and chiffon cloths being extensively used for house gowns.

There is distinct style in small invisible checks, in blue and green particularly attractive in modified redingote and long severely tailored coat

A POPULAR FALL COSTUME.

suits so becoming to tall women, but quite as many boleros and Etons are seen on the street here and in many exclusive shops.

There is no time when these natty little jacket suits seem more charming than the early Fall, for it is then that the tailor made girl is seen in her greatest glory. When the season for wraps rolls around, however, many of a suit's best points are lost. Particularly is this true this season, for almost invariably skirts are untrimmed, and the distinctive features are in effective collars, waistcoats, trimmings, smart buttons and becoming belts and girdles. On the other hand, the long coat is frequently sufficiently heavy to be worn without a wrap, a fur neck-piece and a smart little golf vest underneath giving additional warmth.

Unscrupulous arbiters of fashion reckoned unwisely when they foretold the passing of the plaited skirt. As a matter of fact, the plaited skirt will be with us for at least a season longer. Skirts are not so universally plaited all around perhaps as formerly, but are varied now and then with fitted side yokes terminating in a flat panel down the front with a box plaited back. Often in such models fullness from the yoke is formed by quite small tucks, and frequently this portion of the skirt is cut circular, giving a pretty flare at the bottom. In the making of successful circular skirts most experienced tailors often come to grief. These skirts invariably sag after having been worn a few times, and the weave of the cloth employed is unquestionably responsible for many such defects.

An extremely modish trimming for the dressier tailor frocks is white broadcloth, either finished with rows of very narrow braid or with applied embroidered motifs or band effects. Applied collars and smart little waistcoat effects are produced by the introduction of white broadcloth, narrow soutache braid stitched on crosswise softening the white and adding to its serviceability. On many imported suits both panne velvet and white broadcloth

are beautifully combined, and tiny vests and straps are fastened with modish bullet buttons in gun metal and exquisite Dresden and cloisonne designs. On the bodice of a gown of a rich wine shade were glass buttons exactly matching in color, which sparkled with unusual brilliancy, and on a blue cloth suit with white broadcloth vest were gun metal buttons with silver centers. Some of the handlamer buttons are brought out with adjustable fastenings, making it possible to use them for more than one purpose.

Dainty little chemisettes, with deep cuffs to match, give a delightful feminine touch to both street and house gowns. In order to wear these a last season's frock may be easily cut in a short V or a round neck effect. The prettiest chemisettes are fastened in the back, the collar being attached by narrow beading or cut in one piece. Where a gown is fashioned a trifle low at the throat these lingerie effects add a certain freshness to the appearance—an essential feature of a well groomed woman. Chemisettes and cuffs, handmade or of less expensive workmanship, embroidered and tucked, are brought out just ready to slip into the gown, changing its entire appearance in a moment's time.

Hats extremely tilted are the vogue this season, and upon the encephalopne, or high bandeau, most of the trimming is piled. The trimming for these bandeaux, however, is noticeably light and airy, frequently of tulle put on in billowy clouds and caught down with a bow of velvet ribbon loops on one side. Generally the outside of such hats are comparatively simple, elaboration being confined to the bandeau trimming.

One sees an occasional hat almost covered with a superb bird with outstretched wings, the tail drooping over the hair, or a chic little round velvet shape with a wreath of velvet daisies or orchids around the crown. Very large wings are used on the more practical hats, and particularly stylish they are with their pointed ends. Ostrich feathers, of course, are worn in profusion.

Tulle ruffles are seen on very dressy white hats to be worn with the all white theater frock and evening coat, and sometimes a duffy tulle bow and charming little tuft to match are brought out to be worn with such hats.

Long soft cape scarfs, flower strewn with orchids, sweet peas or sprays of buttercups are more than ever worn over the hair and around the throat under the evening wrap. Some of these have fascinating borders in corresponding solid tints. Lace mantillas in black also have an undecidable charm when worn over the hair. Quaint little silk shawls embroidered and fringed are a pretty evening accessory, and many a young woman will find one at the bottom of grandmother's trunk in the garret. Silk manufacturers, however, had a happy inspiration when they evolved a way to reproduce them this season in many soft shades and weaves.

A Cut-Glass Bath Tub.

A woman, not an actress nor Mrs. "Stuyve" Fish, danced into a glass and china house in Barclay street the other day and astounded the manager by ordering a cut-glass bath tub seven feet long, two and one-half feet wide and two feet deep.

"I fear it is impossible, madam," he said. "I never heard of anything so large in cut glass. I doubt if any in the world could turn out such a thing. Besides, the cost would be immense."

"You need not worry about the cost, sir; I shall take of that. The question is—can you make the tub?" He said he would let her know within a week. To his head salesman he said that such a tub could not be made for less than \$50,000.

Divorce for Young Girl.

Carrollton, Ky., Sept. 23.—Circuit court in session this week. Judge J. M. Lassing presiding. At this term of court Margaret Darboe was granted a divorce from Riley Darboe and restored to her maiden name. She is twelve years of age who was taken from the Kentucky orphan's home at Louisville and adopted by Mrs. J. W. Butts, of this city. The marriage occurred about six months ago, but no sooner was the ceremony performed than the bride requested to be taken home, saying she had no idea what she was doing when she was married.

BEATING HEART.

Removed From Man Is Out For an Hour, But Patient Will Recover.

(Philadelphia (Penn.) Dispatch.)

The removal of a man's beating heart and its replacement after a bullet had been extracted from the region adjacent to the organ, is the achievement in medical science just accomplished by physicians at the Germantown Hospital. The operation bids fair to be successful.

The patient is Frank Robinson, 32 years old, known as "Hardman," of Germantown, because of his powerful physique. He weighs 252 pounds and is proportionately formed. He became the subject of surgical attention as the results of an altercation with Policeman Morley on September 7, when, for self-protection the policeman asserts, he was obliged to shoot Robinson whom he was trying to arrest.

The bullet entered Robinson's left breast directly on a line with his heart. His death was looked for momentarily. When he continued to live 24 hours the physicians realized they had a remarkable case. Surgeons from all over the city were attracted by the case.

It was decided after the third day that the man's heart probably was not injured, but there was pressure near it. Few doctors would even recommend the delicate operation necessary to relief, much less undertake it.

One distinguished master of surgery, however, volunteered to perform the operation. The patient was put into condition, and last Thursday the operation was performed.

To carry it out, portions of two ribs were removed, exposing the heart to view. No evidence of a bullet could be seen, so the surgeon removed the organ and holding it in his hand, made a minute and thorough examination. As soon as it was taken from the body it was observed the heart seemed to beat more vigorously and with great regularity.

Attention was then given to the fleshy environment in the heart region of the chest, which was found to be greatly inflamed. For nearly an hour the search for the seat of the trouble continued before the bullet was found imbedded in the flesh within a small fraction of an inch of the heart, upon which it had caused the pressure.

During all the time of the operation the heart was in full view of the physicians, performing its contraction and expansion, as it sent the patient's blood through the arteries to the furthestmost portion of his body.

It was a spectacle such as few physicians have ever had the privilege to look upon, and it was only made possible in this case through the marvelous vitality of the patient. After the bullet was removed the heart was put back into place and the ribs also were replaced and covered with the flesh.

When the patient recovered from the effects of the anæsthetic he seemed to be much relieved, though naturally he was weak.

The operation is said to be only

Bowling Green Ky., Jan. 12, 1904.—Dr. E. W. Hall, St. Louis Mo., Dear Sir: We have been selling your Texas Wonder, Hall's Great Discovery, for years and can recommend it to any one suffering with any kidney trouble as being the best remedy we have ever sold.

Yours truly,
W. C. MORRIS & Co.

A TEXAS WONDER

One small bottle of Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emission, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two month's treatment, and seldom fails to cure any of the above mentioned. Sold by all druggists. Dr. E. W. Hall, sole manufacturer, P. O. box 629, office, 2931 Olive Street, St. Louis, Mo.

the second one of its kind ever performed in this city. The other had been made at the Jefferson Hospital several months ago upon a patient whose heart had been slashed by a knife thrust. The organ was taken out and the severed portion sewed together without interrupting the heart's action.

In both cases the patients have been fine specimens of physical manhood.

No Unpleasant Effect.
If you over take DeWitt's Little Early Risers for biliousness or constipation you know what pill pleasant is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effect. Sold by Z. Wayne Griffin & Bro.

\$600 GIVEN AWAY.
Christmas Presents for Subscribers to the Weekly Courier-Journal

The Weekly Courier-Journal (Henry Watterson's paper) wants to share the profits of this prosperous year with its subscribers. It proposes to give away twenty Christmas presents ranging from \$100 to \$20, amounting to \$600 in all. There will be four general presents of \$100, \$50, \$30 and \$20, and sixteen presents of \$30 and \$20 to be given in the states of Kentucky, Indiana, Tennessee, Texas, Mississippi, Missouri, Virginia and Alabama. The plan is fair and simple. Write for the Courier-Journal Company, Louisville Ky., for a copy of the Weekly Courier-Journal, giving full details. It will be sent free.

Missed Something.
Adam was showing Eve the beautiful sights in the Garden of Eden! "How do you like it, dear?" he asked.
"It's too lovely for anything," she said, "but I am so sorry about one thing!"
"What is that?"
"I have no friends to send souvenir postal cards to!" she answered, with a dry sob.

Can You Eat?
J. B. Taylor a prominent merchant of Chriesman, Tex., says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All the money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefitted me, and after taking four bottles, I am fully restored to my usual strength, weight and health." Kodol Dyspepsia Cure digests what you eat and cures. Sold by Z. Wayne Griffin & Bro.

As She Is Spoken.
"Are you going to take that little trip with me I spoke about last week?"
"I haven't thought about it."
"Well, think of it this week, will you?"
"Yes, if I think about it, I'll think about it."
"By the way, I saw you on the street the other day and you never noticed me."
"I never noticed you."

Numerous and Worthless.
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruised and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by Z. Wayne Griffin & Bro.

Undoubtedly.
Little Willie—Say, pa, what does this paper mean by a "quiet wedding?"
Pa—Guess it must refer to the marriage of a deaf and dumb couple, my son.

Incredible Brutality.
It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklin's Arnica Salve, which quickly healed and saved his eye." Good for burns and ulcers too. Only 25c at Z. STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.
Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weakness, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

SHOW TRICKS ARE EXPOSED

Stage Artisan a Fake in Many of His "Stunts"—Some Mysterious Magic.

When you see a man come out on the stage and shoot the ashes off a cigar which is being smoked by an assistant, don't believe all you see. A hatpin is run through the cigar, the point just reaching the ash. The assistant just pushes the knob at the other end and down falls the ash to great applause. Of course only blank cartridges are used.

Breaking two glass balls with two pistols is almost as simple. One of the pistols only is loaded, and with shot; the other has a blank cartridge. The loaded pistol is aimed between the two balls and the shot scatter, breaking them both—that's the trick.

Extinguishing several numbered candles by number on request of the audience is seldom more than a hollow joke. Behind each candle is a hole in the target. An assistant hidden behind it simply blows out the candle, taking care to blow the right candle at the right time—that is, when the pistol cracks.

Blindfold shooting simply means that the performer glances down his nose to a mirror fixed at an angle behind the back sight and aims as straight this way as if the bandage were not there.

Painting a complete picture in a jiffy in the presence of an audience is also artifice. What looks to you like an immaculate and untouched canvas is in reality a finished picture covered with whitewash. All the "artist" does is to simulate painting while he merely wipes off the whitewash with his brush. The result is a picture that would require, if it were honestly done, at least a day's work.

Those awfully heavy looking dumbbells of the strong man are sometimes somewhat hollow at the core. You will notice they are always put in the same place, preferably on a special platform, when the man from the audience is invited to lift them. Under the platform are powerful magnets holding the weights down. Suddenly roll them off the platform and you can probably lift them in one hand, as that operation releases them from magnetic control.

STREET VENDERS IN PARIS

Probably Most Abused and Most Amusing Is the Chestnut Man.—His Wares Are Delicious.

There are many amusing characters in Paris, and one of the most tormented and sometimes the most amusing is the chestnut man, who makes his appearance about the middle of October and stays until the first of April. Nobody knows what becomes of him then—he simply disappears. His first appearance is hailed with delight, for if there is one thing that the French "gamin" likes better than fried potatoes it is roasted chestnuts.

The vendor takes up his position

at a street corner or at a window that he has rented in some little shop. His stock in trade consists of a big bag of chestnuts, a round sheet iron stove with a perforated top, and a place underneath to put charcoal. Then he begins operations. He takes out his chestnuts and cuts a gash in each one, so that they will not fly off into the street when they begin to get hot, and then he puts them on top of the stove, which he has filled with lighted charcoal, putting a grating or cover over them, and then he calmly awaits developments. In a few minutes they are done, and he is ready for customers. They do not keep him waiting, especially if the day happens to be chilly. If there is anything better than hot, roasted chestnuts on a cold, damp day the writer does not know what it is. He has the greatest variety of customers.

TRICK WITH ROPE LADDER.

Wholesale Hypnotism Explains Work of Ceylon Juggler in His Many "Stunts."

An American resident of Ceylon recently wrote home the following account of the famous rope ladder trick:

"We sat in the compound, solemn and silent, as the magician's state demanded, for he was the greatest of Ceylonese jugglers."

"There was a burst of weird music, and the man appeared with a rope ladder coiled in his hand. He looked at us, and then, with a graceful, powerful movement, he threw the ladder up towards the blue, sunlit sky."

"We all gasped. For the ladder stood erect in the air, the bottom a foot from the ground, and the top running up, up, up, till it was lost to view."

"We gasped. If this was not magic, what was it?"

"A boy appeared. He put his foot on the erect and floating ladder's bottom rung, and he began, very slowly, to climb up."

"Up, up, he went. I counted a hundred rungs, a hundred and twenty-five, a hundred and fifty. The boy became very small. I rubbed my eyes. The magician clasped his hands suddenly, the music burst into a wild strain—the boy and the ladder disappeared."

"They disappeared completely. I didn't see them again till the next afternoon, when the same trick was repeated. I had a hand camera along this time, and I made a half dozen snaps of different parts of the ladder trick. These snaps came out well. They showed the magician, the orchestra, the compound. But they showed nothing—nothing whatever—of the ladder and the boy. Hence, it is plain that the famous eastern ladder trick is a remarkable piece of hypnotism. There was no ladder, there was no boy. The magician had thrown us all into a trance, and made us imagine them."

NOTICE TO TAX PAYERS.

Since the first day of July it has been within my power under the law to levy on, advertise and sell your property for the satisfaction of unpaid taxes but, to give everyone a fair opportunity to pay his taxes without exercising that privilege I have given public notice by hand bill and publication in both county papers to tax payers all over the county to meet me at certain designated points on given days. Many have availed themselves of that opportunity to settle but many have failed, and to give them a further chance to settle I am mailing notices to everyone who yet owes taxes asking them to meet me in the community of their homes on certain days and if these are not heeded I will be compelled to exercise the prerogative given me by law and levy, advertise and sell your property. Heed this warning it means every tax payer who has not paid.

THEFTS OF LITERARY MEN.

How Many Famous Authors Secured Their Plots and Material from Others.

The capacity for stealing with art and elegance is one of the most potent equipments of the literary man, says the Detroit News-Tribune.

Shakespeare was a magnificent thief. He stole whatever he could lay his hands on in a literary way, and never worried in the stealing.

He stole "Measure for Measure" from a play called "Promos and Cassandra." He stole "Hamlet" from a play by George Kyd.

"Romeo and Juliet" he stole from Italian novels and he got his "Othello" from the same source.

When he wanted a plot for a Roman play he went to Plutarch.

The great Sir Walter Scott, the author of the Waverley novels, stole with sublime talent. He stole from Goethe. He stole from Sheridan.

"It is a bad thing to have a good memory," said Byron, alluding to Scott, whom Wilkie Collins called the "king of novelists."

"I should not like to have you for a critic," said his friend, Capt. Medwin. "Set a thief to catch a thief," replied Byron.

Charles Reade claimed the right of the literary artists to set jewels even though the gems are the property of another.

Alexander Dumas, the famous author of "The Three Musketeers" and "Monte Cristo," was one of the most remarkable filchers in literature. In one single year his name was attached to no less than 40 different books.

Not only did he steal unblushingly from every author who came handy, but he employed numerous literary ghosts and passed off their work as his own. Brought to book, he had a ready reply. "The man of genius does not steal," he said, "he only conquers."

Alexander Pope, who made many thousands of dollars by his poetic translation of "Homer's Iliad," was an indifferent Greek scholar. In addition to stealing from previous translators, he employed others to help, and then claimed the whole work as his own. When he translated the "Odyssey" he kept the public in ignorance that only 12 books could be called his and the rest

were the work of men whom he paid badly.

The arguments in Pope's "Essay on Man" were furnished by Lord Bolingbroke, and his "Essay on Criticism" was a poetic version of the stolen conversation of his intimates.

Richard Brinsley Sheridan, wit, dramatist and politician, stole his famous characters, Charles Surface and Joseph Surface, in "The School for Scandal," from Tom Jones and Bliffl, in Fielding's well-known novel, and he abducted Tabitha Bramble and Sir Hubert Mackkilligut and transformed them into those still more entertaining characters Mrs. Malaprop and Sir Lucius O'Trigger, in "The Rivals."

Coleman, the author of "The Jealous Wife," had been predatory instincts and in the prologue to his play there occur these lines: Books, too, he read, nor blushed to use their store.

He does but what his betters did before. Shakespeare had done it and the Grecian stage Caught truth of character from Homer's page.

It is unnecessary to speak of modern authors who stole and are stealing still. Only history can afford to be free-spoken. There is a journalistic tradition that all the editors of all the evening papers steal from all the editors of all the morning papers, and vice versa, and all the editors of all the weekly newspapers from both.

Careful Comparison.

"We don't want no flyin' machines," said Mr. Erastus Pinkley, emphatically. "Dem automobiles is bad enough."

"Do you think flying machines will be worse than automobiles?" "Yaas, I does. When you is hit by an automobile, dar you is; but when you is hit by a flyin' machine, you ain't thoo' yit. You has a long hard drop comin'."—Washington Star.
